Received ISO-14001 Certification for Gumi Plant 1

Why TCK

Since 1972!

TCK Textiles Korea's Technology, depth of experience and unique know-how were not accumulated overnight. Since the 1970's, we have produced and supplied products and solutions. We will continue to pursue sustainable growth, making great achievements to support customer's success!

Pride in Quality!

The excellent quality of our premium products which accommodate the diverse needs of customers is well acknowledged in the market. What determines finished product quality is raw material. We use microfiber fabric which is made in Korea with highly strict quality control.

Vertically Integrated Structure!
